Job Description: Software Engineer Intern (Full-Time)

Job Title: Software Engineer Intern
Employment Type: Full-Time Internship
Location: Onsite
Industry: Enterprise Software Development

Job Overview

We are seeking a motivated and detail-oriented Software Engineer Intern to join our enterprise technology team. The intern will work closely with senior engineers on designing, developing, and maintaining scalable software solutions using Java and Flutter in a professional corporate environment.

Key Responsibilities

- Assist in developing backend applications using Java
- Build and maintain cross-platform mobile applications using Flutter
- Write clean, maintainable, and well-documented code
- Participate in code reviews and team meetings
- Debug, test, and optimize application performance
- Collaborate with cross-functional enterprise teams

Required Qualifications

- Currently pursuing or recently completed a degree in Computer Science or related field
- Strong understanding of Java programming fundamentals
- Basic knowledge of Flutter and Dart
- Familiarity with object-oriented programming concepts
- Good problem-solving and communication skills

Preferred Skills

- Exposure to enterprise software development practices
- Understanding of REST APIs and backend integration
- Experience with Git or other version control systems
- Ability to work in a structured corporate environment

What We Offer

- Hands-on enterprise project experience
- Mentorship from experienced software engineers
- Professional corporate work environment
- Opportunity for full-time conversion based on performance
